**ALL PRODUCTS: - COUNTRY OF ORIGIN: USA**

## **DETAIL INFORMATION ON THE PRODUCTS AND ITS USAGE**

- Textured or pellet form made from raw materials sourced in the USA.
- The purpose is to supplement the shortfall of animal feed available in the UK as well as to introduce tried and tested products by mega farms, farmers and individuals regarding superiority of the products which leads to greater yield, and by extension, lower overall feed cost and increased profit margins which stands to benefit farms, farmers and citizens of the UK.
- The product will be imported on orders and would be sent directly to the end users. This ensures preservation of quality and freshness. Product will be in its finished form inside the packages, ready for use by farms/ farmers as food for the animals. Our Products are versatile and is becoming a growing trend globally. Our animal foods have been formulated to reflect proper nutritional requirements in every serving size for different sizes of animals. Packaging and distribution of our products plays a key role in ensuring it arrives at their final stop in perfect condition. This is one of the reasons a warehouse is omitted as it contributes to the development of: molds, mildew and rancidity. Our customers satisfaction for their money spent is guaranteed.

## Full details of manufacturing process:

- Confirm that the animal food to be imported into the UK:
  
- All raw materials originate from the USA and the following diseases have not been reported: Cattle Disease, Foot-and-Mouth-Disease, African swine fever, Classical Swine Fever, Swine Vesicular Disease and Contagious Bovine Pleuropneumonia.
  
- b) Was again heated up for at least 30 minutes to a minimum of 90 °C, in accordance with WOAHP recognized heating method during the production process for any feed which contains animal protein.
  
- c) Was not produced from: Farm animals that died and were not slaughtered, including stillborn and unborn animals, as well as animals subjected to emergency slaughter for their own benefit or animals that died during transport.
  
- d) Animals that were slaughtered in connection with health control measures, on the farm or at any other place determined by the responsible authority.
  
- e) Those parts of the normally slaughtered animals that were not subjected to an examination of the meat, with the exception of hides, skins, hooves, feathers, wool, horns, blood and similar products.
  
- g) Meat, poultry, fish, game as well as animal products that were rotten.

- h) Animals, fresh meat, poultry, fish, game, meat products that did not comply with the veterinary requirements of the Community legislation concerning the import into the Community during the inspection.
- Animal by-products (including meat) that contain residues of substances and environmental contaminants according to the Regulation (EU) 2017/625 if these residues exceed the maximum value determined by Community legislation or, if such a maximum value has not been determined, the maximum value of the individual country and could therefore represent a risk for the health of humans and animals.
- j) Fish or fish guts that were excluded for human consumption due to clinical signs for an infectious disease.
- k) The animal food was subjected to all precautionary measures in order to avoid a contamination with pathogenic germs after the processing.
- l) The animal food was filled in a new package.

## Record Rack® Professional 20% Deer Pellets

**Product Purpose:** This supplement is designed to be fed to deer when limited forbs and browse are available.

Deer require different nutrients at various times of the year and Mother Nature can't always keep up. If you want to maintain a healthier herd on your property, and help support the growth of bucks to their full genetic potential, then throwing corn out isn't enough. Record Rack® Professional Premium Deer Feed is designed to supplement free-range conditions where animals have access to natural browse and forbs—ideal for game management programs. It contains a unique and consistent blend of select ingredients.

**Product Information:**

- Product code: 45003
- Weight: 50
- Form: Pellet
- UPC Code: 7-22304- 10942-4

**Product Packaging:**

**Features and Benefits:**

- High fat to provide more energy
- Advanced levels of yeast, chelated minerals and energy
- High protein to help support overall herd health
- All the vitamins and minerals necessary to help support a healthy bodyweight and antler growth
- Our exclusive wild berry recipe to attract deer in and help ensure consumption

**Feeding Directions:**

Feed free-choice to deer and elk in their natural environment as a supplement to their diet when limited forage and browse are available or feed to confined deer free-choice with hay.

Provide plenty of fresh clean water at all times.

**Warning: The feeding and baiting of wild deer is prohibited in some regions. Consult local laws and regulations before using this product.**

*CAUTION: Store feed in a clean, cool and dry location. Storage area should be free of insects and rodents. Do not allow animals access to feedstuffs that show signs of insect or rodent infestation. Do not allow animals access to hot or moldy feedstuffs at any time.*

**Product Form Description:** Pelleted—compressed product form providing consistent nutrition in every piece which eliminates sorting by the animal.

## Record Rack® Golden Deer Nugget™

**Product Purpose:** Record Rack® Golden Deer Nuggets™ are specially designed to attract and nourish deer with a unique nutrition-packed formula that contains the high-quality ingredients deer crave – and the balanced nutrition they require.

**Product Features:**

- Twice the nutritional value than corn to support growth and antler development
- Trace mineral package to support healthy antler development
- Higher vitamin levels to help support a healthy immune system during periods of stress from the environment and from the rut
- No waste or stopped-up feeders from corncobs and stalk trash
- Ideal for all wildlife, including quail and gamebirds

**Feeding Directions:**

- Feed in spin cast feeders (1.5" opening or larger), gravity feeders, covered troughs where the feed will not be exposed to rain. You can also toss on the ground as a treat if rain is not in the near forecast. This product is also popular to mix with corn for added nutrition.
- Feed free-choice to deer and game in their natural environment as a supplement to their natural diet when limited browse and forbs are available.

Warning: The feeding and baiting of wild deer is prohibited in some regions. Consult local laws and regulations before using this product.

*CAUTION: Store feed in a clean, cool and dry location. Storage area should be free of insects and rodents. Do not allow animals access to feedstuffs that show signs of insect or rodent infestation. Do not allow animals access to hot or moldy feedstuffs at any time.*

**Product Information:**
