**ALL PRODUCTS: - COUNTRY OF ORIGIN: USA**

## **DETAIL INFORMATION ON THE PRODUCTS AND ITS USAGE**

- Textured or pellet form made from raw materials sourced in the USA.
- The purpose is to supplement the shortfall of animal feed available in the UK as well as to introduce tried and tested products by mega farms, farmers and individuals regarding superiority of the products which leads to greater yield, and by extension, lower overall feed cost and increased profit margins which stands to benefit farms, farmers and citizens of the UK.
- The product will be imported on orders and would be sent directly to the end users. This ensures preservation of quality and freshness. Product will be in its finished form inside the packages, ready for use by farms/ farmers as food for the animals. Our Products are versatile and is becoming a growing trend globally. Our animal foods have been formulated to reflect proper nutritional requirements in every serving size for different sizes of animals. Packaging and distribution of our products plays a key role in ensuring it arrives at their final stop in perfect condition. This is one of the reasons a warehouse is omitted as it contributes to the development of: molds, mildew and rancidity. Our customers satisfaction for their money spent is guaranteed.

## Full details of manufacturing process:

- Confirm that the animal food to be imported into the UK:
  
- All raw materials originate from the USA and the following diseases have not been reported: Cattle Disease, Foot-and-Mouth-Disease, African swine fever, Classical Swine Fever, Swine Vesicular Disease and Contagious Bovine Pleuropneumonia.
  
- b) Was again heated up for at least 30 minutes to a minimum of 90 °C, in accordance with WOAHP recognized heating method during the production process for any feed which contains animal protein.
  
- c) Was not produced from: Farm animals that died and were not slaughtered, including stillborn and unborn animals, as well as animals subjected to emergency slaughter for their own benefit or animals that died during transport.
  
- d) Animals that were slaughtered in connection with health control measures, on the farm or at any other place determined by the responsible authority.
  
- e) Those parts of the normally slaughtered animals that were not subjected to an examination of the meat, with the exception of hides, skins, hooves, feathers, wool, horns, blood and similar products.
  
- g) Meat, poultry, fish, game as well as animal products that were rotten.

- h) Animals, fresh meat, poultry, fish, game, meat products that did not comply with the veterinary requirements of the Community legislation concerning the import into the Community during the inspection.
- Animal by-products (including meat) that contain residues of substances and environmental contaminants according to the Regulation (EU) 2017/625 if these residues exceed the maximum value determined by Community legislation or, if such a maximum value has not been determined, the maximum value of the individual country and could therefore represent a risk for the health of humans and animals.
- j) Fish or fish guts that were excluded for human consumption due to clinical signs for an infectious disease.
- k) The animal food was subjected to all precautionary measures in order to avoid a contamination with pathogenic germs after the processing.
- l) The animal food was filled in a new package.

## Complete nutrition for all mini pigs

A convenient complete feed for mini pigs, that can be fed as the sole ration or with roughage.

- Includes balanced amino acids, protein, vitamins and minerals mini pigs need to thrive
- Recommended for all mini pigs at all life stages
- Firm, highly palatable pellets help reduce dust and waste
- No added antibiotics or hormones
- Pelleted form

COUNTRY FEEDS

PIG

## Country Feeds® Pig Starter/Grower 19%

**Product Purpose:** Country Feeds® Starter/Grower Pig Feed provides a great value for the vitamins and minerals needed to help baby pigs get a good start on life. Young pigs' digestive systems are still developing, and using whey protein in the starter/grower ration increases palatability and provides an easily-digested energy source.

### Product Features:

- Provides essential vitamins and minerals growing pigs need
- Balanced protein with amino acid profile optimized for young pigs
- Contains whey products to ease weaning transition and for improved palatability and digestibility
- Complete feed, no additional supplements required
- Meat and bone meal free
- Pelleted form encourages consumption and helps to minimize waste
- Nutrient-dense formulation supports limited intake associated with weaning stress
- Added zinc supports a healthy immune system

### Feeding Directions:

Feed this product as the sole ration free choice to pigs from 20 pounds to 100 pound average weight. If pigs are foraging, intakes will be lower than if fed on confinement.

Fresh clean water should be available at all times.

**CAUTION:** Store feed in a clean, cool and dry location. Storage area should be free of insects and rodents. Do not allow animals access to feedstuffs that show signs of insect or rodent infestation. Do not allow animals access to hot or moldy feedstuffs at any time.

### Product Information:

- Product code: 95234 - 50 lb. Pellet
- UPC: 7-2230439364-9

### Product Packaging:

**Product Form Description:** Pelleted – compressed product form providing consistent nutrition in every piece which eliminates sorting by the animal.

### Guaranteed Analysis:

COUNTRY FEEDS®

PIG

## Country Feeds® Pig Grower/Finisher 16% Pellet

**Product Purpose:** For growing and finishing pigs from 100 LB to market weight. This is a complete feed for growing and finishing pigs.

**Balance is Key:** The protein and amino acid profile in Country Feeds® Grower/Finisher Pig Feed is specifically designed to be optimum for pigs that are being raised for meat.

**Grow Right:** Added lysine helps promote growth and development of muscle, so pigs get the right type of growth.

**Nutrient Dense:** A growing pig needs a wide array of nutrients and a good deal of energy to perform well. Our Country Feeds Grower/Finisher Pig Feed is packed with the nutrition that pigs need and delivers that nutrition with the amount of energy they require.

### Product Features:

- Nutrient-dense formulation supports growth and muscle development
- Fortified with 16% protein, amino acids, vitamins and minerals for healthy pigs
- Meat and bone meal free
- Complete feed, no additional supplements required
- Pelleted form encourages consumption and helps to minimize waste
- Added zinc supports a healthy immune system

### Feeding Directions:

Feed this product as the sole ration free choice to pigs from 100 pounds to market weight.

If pigs are foraging, intakes will be lower than if fed on confinement.

Fresh clean water should be available at all times.

*CAUTION: Store feed in a clean, cool, and dry location. Storage area should be free of insects and rodents. Do not allow animals access to feedstuffs that show signs of insect or rodent infestation. Do not allow animals access to hot or moldy feedstuffs at any time.*

### INGREDIENTS:

Wheat Middlings, Ground Corn, Corn Distillers Dried Grains with Solubles, Soybean Hulls (7.5%), Dehulled Soybean Meal, Suncured Alfalfa Meal, Calcium Carbonate, Ground Wheat, Salt, Dicalcium Phosphate, Monocalcium Phosphate, Cooked Corn Flour, Yeast Culture, Propionic Acid (a preservative), Choline Chloride, Zinc Sulfate, Ferrous Sulfate, Manganese Oxide, Copper Sulfate, Sodium Selenite, Calcium Iodate, Vitamin E Supplement, d-Calcium Pantothenate, Niacin Supplement, Menadione Sodium Bisulfite Complex (source of Vitamin K activity), Riboflavin Supplement, Biotin, Vitamin A Acetate, Vitamin B12 Supplement, Vitamin D3 Supplement, Pyridoxine Hydrochloride, Thiamine Mononitrate, Folic Acid, Ethoxyquin (a preservative), Vitamin A Supplement, Selenium Yeast, Brewers Dried Yeast.

**FEEDING DIRECTIONS:** Country Feeds 16% Mini Pig Food can be fed right from the bag. The amount of food depends upon your pig's age, weight, activity level and temperament. Approximately 2-3% of bodyweight should be consumed per day. Adjust this according to body condition, growth rate and appetite. Mature pigs should be fed 1 - 2 times per day or they can be fed using a self-feeder. Find your mini-pig's approximate weight on the chart below to help determine the amount of food you should feed daily.

<u>Bodyweight (LBS)</u>	<u>Growing</u>	<u>Adult</u>
10-40	2/3 - 1 1/4 LBS	1/2 - 1 LBS
40-80	1 1/4 - 2 1/2 LBS	1 - 1 2/3 LBS
80-140	2 1/2 - 4 3/4 LBS	1 2/3 - 3 1/4 LBS
140-200	-	3 1/4 - 4 1/3 LBS

**IMPORTANT:** Protect animals against disease and parasites. Provide plenty of fresh, clean drinking water and adequate drinking space for each pig in your herd. If using a self-feeder, it should be adjusted to minimize feed waste. Provide adequate space at the feeder per pig. Prevent moisture condensation, mold and insect infestation. An effective husbandry program and controlled feeding program should be followed. Consult your veterinarian, if any disease problems are observed.

For your safety, and that of your animals, always read and follow label directions.

## Sunglo® Sumo™

**Product Purpose:** High fat, milk-based supplement for added fat cover and improved bloom and consumption for show pigs.

Sunglo® Sumo™ works well on both market hogs and breeding gilts that need added fat cover, improved feed consumption, and enhanced bloom. Sumo™ can be fed at any time at any part of the feeding phase of your pig. Sumo™ is highly palatable and mixes easily with either ground or pelleted feed.

**Product Features:**

- Can be used for top dressing or as the fat source when making feed on a farm
- Unique blend of dry fat and milk sources
- Can enhance bloom and cover in every feeding phase

**Feeding Directions:**

Supplemental source of animal and vegetable fat and milk products for use in the manufacture of livestock feed. Feeding rate: ¼% to ½% body weight per day for desired condition.

Feed Sumo™ at a rate of up to 12 oz per head per day or until you reach your desired results. Like with any fat product, be sure to monitor your animal's gain and consumption to make sure you stay on track towards your target weight and appearance.

**Important Management Tips:**

Always provide access to fresh, clean water

Check weight gains at set time intervals and adjust daily feeding rate as needed until target weight is reached

Always transition slowly from one ration to another to help avoid digestive upset

*CAUTION: Store feed in a clean, cool and dry location. Storage area should be free of insects and rodents. Do not allow animals access to feedstuffs that show signs of insect or rodent infestation. Do not allow animals access to hot or moldy feedstuffs at any time.*

**Product Information:**

SHOW

## Sunglo® S'More Fill™

**Product Purpose:** A dry or wet supplement designed to enhance an award-winning, full appearance for swine, cattle, goats, and sheep.

**Product Features:**

- Multi-species supplement for swine, cattle, goats, and sheep provides fill for a variety of animals
- Fed as a sole ration, Sunglo® Smore Fill™ will enhance show day fill faster than grains alone
- Highly palatable formula encourages consumption and helps reduce waste

**Feeding Directions:**

- Hand feed as a top dress at the rate of 0.5 to 1.0 lb. per head per day
- Mix with water, soak overnight and feed for extra fill
- Use as a sole ration to enhance show day fill
- Add 100 lbs. per ton of S'More Fill™ show supplement as a supplemental add pack to quality show feeds

**Important Management Tips:**

- Always provide access to fresh, clean water
- Check weight gains at set time intervals and adjust daily feeding rate as needed until target weight is reached
- Always transition slowly from one ration to another to help avoid digestive upset.

**CAUTION:** Store feed in a clean, cool and dry location. Storage area should be free of insects and rodents. Do not allow animals access to feedstuffs that show signs of insect or rodent infestation. Do not allow animals access to hot or moldy feedstuffs at any time.

**Product Information:**

- Product code 98197 – 50 lb. Meal

SHOW

## Sunglo® Explode™ Medicated

**Product Purpose:** A medicated supplement containing Paylean® designed to be mixed with Sunglo® complete show feeds.

FOR FINISHING SWINE WEIGHING 150 LBS TO MARKET  
For increased rate of weight gain, improved feed efficiency and increased carcass leanness in finishing swine, weighing not less than 150 lbs, fed a complete ration containing at least 16% crude protein for the last 45 to 90 lbs of gain prior to slaughter.

**ACTIVE DRUG INGREDIENT** Ractopamine hydrochloride.....08 g/ton

**Product Features:**

- Fully fortified feed supplement for show pigs containing Paylean®
- Paylean® has been shown to increase carcass leanness and feed efficiency in market hogs
- Includes high levels of protein and lysine, to help maximize the Paylean® response

**Feeding Directions:**

Mix as shown below to make a finished feed containing at least 16% crude protein and from 4.5 to 9 g/ton of Ractopamine. Feed the resulting mix on a continuous basis to show pigs weighing at least 150 lbs for the last 45 to 90 lbs of gain prior to slaughter.

\*Measuring cup in each bag holds approximately 8 oz of Explode.

	Mixing by ton / Mixing by pounds			
Non Medicated Show Pig Feed (16% Protein or Higher)	1833	1917	5.5	5.75
Explode™	167	83	0.5	0.25
Total Lbs.	2000	2000	6	6
Ractopamine g/ton	9	4.5	9	4.5

**CAUTION:** Ractopamine may increase the number of injured and/or fatigued pigs during marketing. Not for use in breeding swine.

**LIMITATIONS FOR USE:** Feed continuously as sole ration. Ractopamine hydrochloride should be fed for finishing swine weighing not less than 150 lb. in a complete ration containing at least 16% crude protein for the last 45 to 90 lb. of gain prior to slaughter.

**Important Management Tips:**

- Always provide access to fresh, clean water.
- Use extra care when handling, loading and transporting pigs that have been fed Paylean®. It is recommended to remove Sunglo® Explode from the feed 12 hours before transporting.
- Check weight gains at set time intervals and adjust daily feeding rate as needed until target weight is reached.
- Always transition slowly from one ration to another to help avoid digestive upset.

**Product Information:**

- Product code 98200 – 25 lb.
- Pellet
- UPC: 7-16535-00136-7

**Medicated with Paylean®**

**Product Packaging:**

**Product Form Description:** Pelleted—compressed product form providing consistent nutrition in every piece which eliminates sorting by the animal.

**Guaranteed Analysis:**

Protein	Min. 23.0%
Lysine	Min. 1.6%
Fat	Min. 4.0%
Fiber	Max. 4.0%

## Sunglo® Show Pig Complete

**Product Purpose:** This feed is designed to be fed to growing and finishing pigs 50 pounds to market weight.

**Product Features:**

- Scientifically formulated with the latest in feed technology for today's show pig
- Contains prebiotics and postbiotics to support increased immune function and digestive health
- Highly palatable to keep animals on track for the winner's circle

*No other show feed can compete with our record and our growing list of winners at national, State and Local shows in every class and every species. In fact, we've been winning at the highest levels since 1947. Let Sunglo® Feeds help you reach your goals in the show ring and Feed Their Potential®.*

**Feeding Directions:**

Feed this product as the sole ration to show pigs. Provide plenty of fresh, clean water at all times.

**Management Tips:**

- Establish a strong relationship with your veterinarian to help maintain optimal health
- Be sure to keep pigs in warm, draft-free area in cool weather
- In warm weather, keep pigs cool by using shade, fans, or misters
- De-worm pigs on a regular monthly schedule
- Avoid direct sunlight on light-skinned pigs to minimize risk of sunburn
- Brush animals daily, walk regularly, and practice like every day is show day
