ALL PRODUCTS: - COUNTRY OF ORIGIN: USA

DETAIL INFORMATION ON THE PRODUCTS AND ITS USAGE

- Textured or pellet form made from raw materials sourced in the USA.
- The purpose is to supplement the shortfall of animal feed available in the UK as well as to introduce tried and tested products by mega farms, farmers and individuals regarding superiority of the products which leads to greater yield, and by extension, lower overall feed cost and increased profit margins which stands to benefit farms, farmers and citizens of the UK.
- The product will be imported on orders and would be sent directly to the end users. This ensures preservation of quality and freshness. Product will be in its finished form inside the packages, ready for use by farms/farmers as food for the animals. Our Products are versatile and is becoming a growing trend globally. Our animal foods have been formulated to reflect proper nutritional requirements in every serving size for different sizes of animals. Packaging and distribution of our products plays a key role in ensuring it arrives at their final stop in perfect condition. This is one of the reasons a warehouse is omitted as it contributes to the development of: molds, mildew and rancidity. Our customers satisfaction for their money spent is guaranteed.

Full details of manufacturing process:

- Confirm that the animal food to be imported into the UK:

- All raw materials originate from the USA and the following diseases have not been reported: Cattle Disease, Foot-and-Mouth-Disease, African swine fever, Classical Swine Fever, Swine Vesicular Disease and Contagious Bovine Pleuropneumonia.

- b) Was again heated up for at least 30 minutes to a minimum of 90 °C, in accordance with WOAHP recognized heating method during the production process for any feed which contains animal protein.

- c) Was not produced from: Farm animals that died and were not slaughtered, including stillborn and unborn animals, as well as animals subjected to emergency slaughter for their own benefit or animals that died during transport.

- d) Animals that were slaughtered in connection with health control measures, on the farm or at any other place determined by the responsible authority.

- e) Those parts of the normally slaughtered animals that were not subjected to an examination of the meat, with the exception of hides, skins, hooves, feathers, wool, horns, blood and similar products.

- g) Meat, poultry, fish, game as well as animal products that were rotten.

- h) Animals, fresh meat, poultry, fish, game, meat products that did not comply with the veterinary requirements of the Community legislation concerning the import into the Community during the inspection.
- Animal by-products (including meat) that contain residues of substances and environmental contaminants according to the Regulation (EU) 2017/625 if these residues exceed the maximum value determined by Community legislation or, if such a maximum value has not been determined, the maximum value of the individual country and could therefore represent a risk for the health of humans and animals.
- j) Fish or fish guts that were excluded for human consumption due to clinical signs for an infectious disease.
- k) The animal food was subjected to all precautionary measures in order to avoid a contamination with pathogenic germs after the processing.
- l) The animal food was filled in a new package.

COUNTRY FEEDS®

GOAT

Country Feeds® Goat 16% Pellet

Product Purpose: This feed is designed to be fed to growing, maintenance and lactating goats.

Product Features:

- Extremely palatable to encourage intake and support growth of early-weaned kids
- Fortified with the vitamins and minerals goats need
- Balanced for energy and protein to support lactating does and growth
- Proper copper levels for goats to support a healthy coat, immune response, and hoof health
- Includes ammonium chloride to promote a healthy urinary tract
- Feed with roughage for the entire life of the kid or to breeding and lactating does

Feeding Directions:

Introduce gradually to newly weaned kids or those that have not been on high energy rations. Start kids at a rate of 1% of bodyweight per head per day. Gradually increase to 3% of bodyweight per head per day over a period of 2 to 3 weeks. Feed free-choice hay to start, then reduce hay as kids come on feed.

Feed breeding or lactating goats to maintain desired body condition. Offer 1 LB per 3 to 4 LB of milk produced.

Provide hay at 1% to 1.5% bodyweight. Salt should be available free-choice. Appropriate mineral may be offered to breeding and lactating goats

Provide plenty of fresh, clean water at all times.

Do not exceed 50% of total dry matter intake from this feed when fed to mature/breeding goats.

CAUTION: THIS FEED CONTAINS SUPPLEMENTAL COPPER. DO NOT FEED TO SHEEP.

CAUTION: Store feed in a clean, cool and dry location. Storage area should be free of insects and rodents. Do not allow animals access to feedstuffs that show signs of insect or rodent infestation. Do not allow animals access to hot or moldy feedstuffs at any time.

Product Information:

- Product code: 95194 – 50 lb. Pellet
- UPC: 7-22304-44467-9

Product Packaging:

Product Form Description:

Pelleted – compressed product form providing consistent nutrition in every piece which helps eliminate sorting by the animal.

Guaranteed Analysis:

Crude Protein	Min. 16.0%
<small>(This includes not more than 1.3% equivalent crude protein from non-protein nitrogen.)</small>	
Crude Fat	Min. 3.0%
Crude Fiber	Max. 16.0%
Acid Detergent Fiber	Max. 18.0%
Calcium	Min. 0.8%...Max. 1.3%
Phosphorus	Min. 0.35%
Salt	Min. 1.25%...Max. 1.75%
Sodium	Min. 0.1%...Max. 0.6%
Copper	Min. 30 PPM...Max. 40 PPM
Selenium	Min. 0.6 PPM
Vitamin A	Min. 6,000 IU/LB

Please refer to the product tag on bag for ingredient list, complete feeding directions, date code, lot number and most up-to-date guaranteed analysis.

SHOW

Sunglo® Show Goat (Medicated)

Product Purpose: This medicated feed is designed to be fed to growing and finishing meat goats.

For the prevention of coccidiosis in young goats caused by *Eimeria christensenii* and *Eimeria ninakohlyakimovae*.

ACTIVE DRUG INGREDIENT: Decoquinat.....27.2 grams/ton

Product Features:

- Healthy Tract™ Technology to support urinary tract health
- Advanced amino acid profile to support muscle, growth, and bloom for today's show ring
- Highly palatable to keep animals on track for the winner's circle

No other show feed can compete with our record and our growing list of winners at national, State and Local shows in every class and every species. In fact, we've been winning at the highest levels since 1947. Let Sunglo® Feeds help you reach your goals in the show ring and Feed Their Potential®.

Feeding Directions:

Each LB of this Sunglo Goat Medicated feed contains 13.6 mg Decoquinat. Feed at the rate of 1.67 LB per 100 LB bodyweight to provide 22.7 mg Decoquinat per 100 LB bodyweight per day. Provide good quality hay at the rate of 1 LB per 100 LB bodyweight or access to pasture. Feed at least 28 days during periods of exposure to coccidiosis or when experience indicates that it is likely to be a hazard. Provide plenty of fresh, clean water at all times.

(NOT A COMPLETE FEED. FEED WITH HIGH QUALITY HAY)

CAUTION: Do not use Decoquinat in feeds containing bentonite.

WARNING: DO NOT FEED TO GOATS PRODUCING MILK FOR HUMAN CONSUMPTION.

Feeding added selenium at levels in excess of 0.3 PPM in the total diet is prohibited.

Management Tips:

- Establish a strong relationship with your veterinarian to help maintain optimal health
- De-worm goats on a regular monthly schedule, rotating dewormers between treatments for best results
- Exercise goats by walking them three to five times a week to improve your control and showmanship skills
- Practice bracing and setting up daily to help maximize your calf's muscle memory and response
